

District Two Trustee

Candidate Name: **Henry (Hank) Warren**

I have been a working democrat since my retirement from the National Park Service some 25 years ago. Before that as an employee of the federal government I was careful to not impose my ideas upon visitors. Besides, it was not unusual in those day for a broad group of politicians from both parties to be respected by members of the other main party. Since my retirement I have openly worked for the Democratic Party having served for a number of years as a precinct committee officer and for a while as a member of the Executive Board.

Anyway, the key point is right now President elect Biden has his eye on the ball. Moreover, I genuinely respect the kind of candidates Clallam County Democrats have been producing. That is not to say that every candidate votes exactly the way I would on every issue. But I believe that people of good intent can disagree. What I look for is officials who conscientiously study issues and vote their consciences. I also support reasonable compromise and not letting the perfect be the enemy of the good.

I also respect both Betsy Robins and Kris Grier who are likely to be the other two trustees for District 2.

Henry (Hank) Warren
